

ICCGIS2014 Authors Guide to Using EasyChair

1. CREATE AN EASYCHAIR ACCOUNT

Go to: <https://www.easychair.org/conferences/?conf=iccgis2014>

Sign in to EasyChair for ICC&GIS2014

Use your EasyChair account to sign in.

User name:

Password:

If you have no EasyChair account, [sign up for an account](#)
Forgot your password? [click here](#)
Problems to sign in? [click here](#)

Sign in
or sign up for a new
account

Follow the EasyChair instructions to create your account. You will receive an email. Use the link provided in the email to continue the account registration process. Fill out all of the required information and click the "Create my account" button to finalize the account registration process. Sign in EasyChair .

2. SUBMISSION

New Submission for ICC&GIS2014-demo

Follow the instructions, step by step, and then use the "Submit" button at the bottom of the form. The required fields are marked by (*).

More information about submission to ICC&GIS2014-demo can be found on [ICC&GIS2014-demo Web site](#).

Authors

For each of the authors please fill out the form below. Some items on the form are explained below.

- **Email address** will only be used for communication with the authors. It will not appear in public Web pages of this conference. The email address can be omitted for authors who are not corresponding. These authors will also have no access to the submission page.
- **Web site** can be used on the conference Web pages, for example, for making the program. It should be a Web site of the author, not the Web site of her or his organization.
- Each author marked as a **corresponding author** will receive email messages from the system about this submission. There should be at least one corresponding author.

Title, Abstract and Other Information

The title and the abstract should be given as a plain text, they should not contain HTML elements.

The image shows a screenshot of a web form for submitting a paper. The form is enclosed in a light blue border. It contains several input fields and a list of options. Three blue callout boxes with white text and pointer tails are overlaid on the form to provide instructions:

- A callout box labeled "Paste your Title and Abstract" points to the large text area for the abstract.
- A callout box labeled "Select the Category" points to the radio button options for the submission category.
- A callout box labeled "Select the Group" points to the checkbox options for the submission group.

Title (*):

Abstract (*):

Select the category your submission belongs to. If you are not sure check the call for papers.

Category (*): Abstract Refereed
 Full Paper Refereed

If your submission belongs to any of the following group(s) tick the corresponding box.

Group (*): Conference Proceedings - Volume 1
 Seminar EW&CM Proceedings - Volume 2
 Thematic Cartography for the Society - Book

Upload Paper

The submission should be in one of the following formats:

1. Word document (file extension .doc).
2. Word open XML document (file extension .docx).

If you submit only an abstract, then tick the Abstract Only box, else upload the submission. The attachment should be in one of the following formats:

1. JPEG (file extension .jpg).
2. PowerPoint presentation (file extension .ppt).
3. Microsoft PowerPoint open XML document (file extension .pptx).

Paper: Няма избран файл Abstract Only:

Attachment: Няма избран файл

Ready?

If you filled out the form, press the 'Submit' button below. **Do not press the button twice:**

Paper 1

| | |
|------------------|--|
| Title: | 3D Maps – Scale, Accuracy, Level of Detail |
| Paper: | Word document |
| Attachment: | file |
| Category: | Full Paper Refereed |
| Groups: | Thematic Cartography for the Society - Book |
| Author keywords: | 3D map Scale Accuracy Level of Detail |
| Topics: | User-friendly Internet and Web Cartography |
| Abstract: | Nowadays the three-dimensional (3D) virtual worlds, often called cyber 3D worlds, have undoubtedly offered a new perspective on the traditional 2D map. However, the traditional 2D map about the scale of the map and people can calculate the accuracy of the map on this basis. The cartographical theory still does not clearly define the same topics about 3D maps. What does large-scale 3D map mean and what does small-scale 3D map mean? The purpose of this paper is to describe and analyze the terms scale, accuracy and level of detail (LoD) in 3D mapping and to provoke a discussion about the topic. |
| Time: | Oct 22, 08:11 GMT |

Use "Submit a new version" from the menu if you have already submitted your Abstract and want to submit your full paper.
