

Robert H.Nagy

Regional Channel Manager for Central and South-Eastern
Europe
Hexagon Geospatial, HUNGARY

Keynote Speech title:

"21 century GIS workflows - Fusing the Real and Digital World"

Robert H. Nagy is a Channel Manager at Hexagon Geospatial.

In the past five years he was responsible for supporting the South-Eastern European channel partners of Intergraph's SG&I Geospatial Business Units, covering all vertical GIS solutions including utilities, communication, government agencies (cadastre, defence, military), transportation, and public safety & security.

Since the beginning of 2014 from the establishment of Hexagon Geospatial, he is managing the channel sales in the Central and South-Eastern European region at this new division of Hexagon AB.

Providing geospatial software products and platforms to governmental bodies, business customers, educational institutes, channel partners, and other Hexagon businesses.
